

Cancer in Utah

Chronic Lymphocytic Leukemia

<i>Summary</i>	Male		Female	
	Utah 1996-2000	US 1996-99	Utah 1996-2000	US 1996-99
Average annual age-adjusted incidence rates*	4.4	5.0	1.7	2.5
Rank among cancer incidence rates	16	16	<20	<20
Average annual number of new cases	28	5,560	14	3,860
Percent of all new cancer cases	0.9 %	0.9 %	0.5 %	0.6 %
Lifetime risk of this cancer (00-79 years)	1 in 224	1 in 200	1 in 629	1 in 403
Average annual age-adjusted mortality rates*	2.5	2.4	1.0	1.1
Rank among cancer mortality rates	17	17	19	20
Average annual number of deaths	14	2,468	8	1,820
Percent of all cancer deaths	1.2 %	0.9 %	0.8 %	0.7 %
* Rates per 100,000 and standardized to the 2000 U.S. population				

Please refer to discussion on page 149 of this monograph (i.e., section entitled Acute Lymphocytic Leukemia).

Cancer in Utah

Chronic Lymphocytic Leukemia

Incidence

Average annual age-adjusted incidence rates per 100,000 (US 2000 standard) by 5-year time period and sex, 1981-2000

Male

Female

Average annual age-specific incidence rates per 100,000 by sex, 1996-2000

Male

Female

Cancer in Utah

Chronic Lymphocytic Leukemia

Incidence

Average annual age-adjusted incidence rates per 100,000 (US 2000 standard) for twelve Utah Health Districts, by sex, for the time period 1991-2000, with rates from Utah (statewide) and the United States for comparison

Male

Female

Cancer in Utah

Chronic Lymphocytic Leukemia

Mortality

Average annual age-adjusted mortality rates per 100,000 (US 2000 standard) by 5-year time period and sex, 1981-2000

Male

Female

Average annual age-specific mortality rates per 100,000 by sex, 1996-2000

Male

Female

Cancer in Utah

Chronic Lymphocytic Leukemia

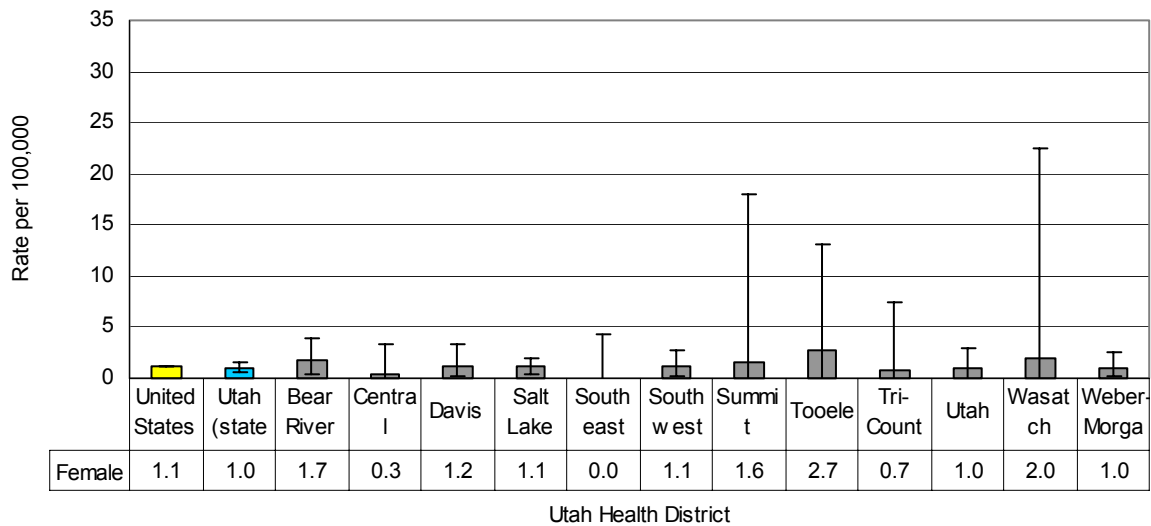

Mortality

Average annual age-adjusted mortality rates per 100,000 (US 2000 standard) for twelve Utah Health Districts, by sex, for the time period 1991-2000, with rates from Utah (statewide) and the United States for comparison

Female

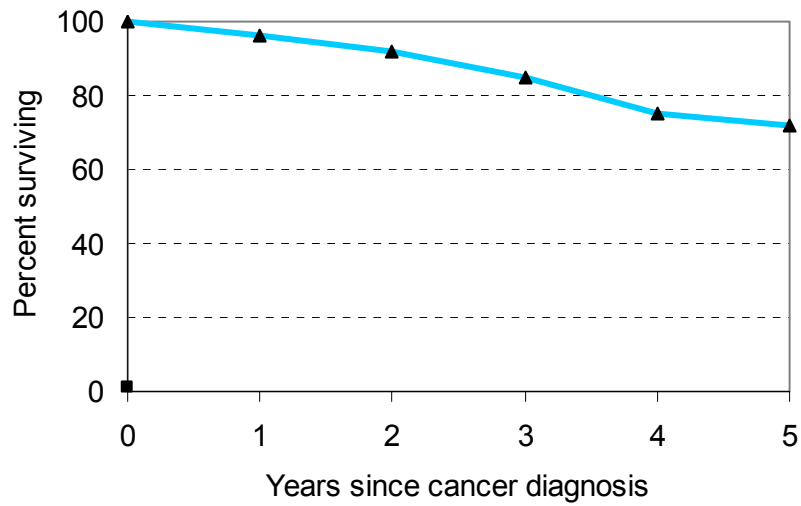

Cancer in Utah

Chronic Lymphocytic Leukemia

Survival

5-year relative survival, Utah residents diagnosed 1991-95

Survival by time period

Region	5-year relative survival (percent surviving) by time period		
	1981-85	1986-90	1991-95
Utah	74.0	66.4	71.8
US	71.0	73.4	74.2
